PROGRAMME OUTCOMES (POs): (2021—2022)

Programme : BA, B.Com, B. Sc.,

- PO1 : Equip students with Knowledge of English as a world language.
- PO2 : Developing Intellectual, Personal and Professional abilities through Effective Communicative English.
- PO3 : English is the language of Arts, Science and Commerce. English increases students’ chances of getting a good job in future.
- PO4 : Students gain an understanding of relations between culture and history through the characters in various contexts.
- PO5 : Students can gain knowledge to make themselves to fit for competitive exams.
- PO6 : Students can gain good knowledge in English with Professional and Language Skills.
- PO7 : Students will be able to write effectively for a variety of professional and social settings.
- PO8 : By having good communicational skills and command over language one can become good speaker.
- PO9 : Students will be able to develop Translation and Drafting skills.
- PO10 : Students can get employability throughout the world.

DEPARTMENT OF MATHEMATICS

Mathematics Program Outcomes

For the Academic Year 2021-22

Demonstrate basic manipulative skills in algebra, geometry, trigonometry, and beginning calculus

Apply the underlying unifying structures of mathematics (i.e. sets, relations and functions, logical structure) and the relationships among them

Demonstrate proficiency in writing proofs

Communicate mathematical ideas both orally and in writing

Investigate and apply mathematical problems and solutions in a variety of contexts related to science, technology, business and industry, and illustrate these solutions using symbolic, numeric, or graphical methods

Investigate and solve unfamiliar math problems

DEPARTMENT OF ELECTRONICS (U.G)

PROGRAMME OUTCOMES :

B.ScELECTRONICS

The overall aim and objectives of the B.Sc. Programme with Electronics are to:

- Provide students with learning experiences that develop broad knowledge and understanding of key concepts of electronic science and equip students with advanced scientific/technological capabilities for analyzing and tackling the issues and problems in the field of electronics.
- Develop ability in students to apply knowledge and skills they have acquired to the solution of specific theoretical and applied problems in electronics.
- Develop abilities in students to design and develop innovative solutions for benefits of society, by diligence, leadership, team work and lifelong learning.
- Provide students with skills that enable them to get employment in industries or pursue higher studies or research assignments or turn as entrepreneurs.

PROGRAMME OUTCOME FOR 2021-22

U.G DEPARTMENT OF CHEMISTRY

B.Sc., (Chemistry)

Programme Objectives:

- ❖ Bachelor of Science in Mathematics, Chemistry and Computer Science is a three-year degree programme which provides a strong foundation in Mathematics, Chemistry and Computers.
- ❖ Students can understand the interdisciplinary nature of chemistry and to integrate knowledge of mathematics, computers and other disciplines to a wide variety of chemical problems.
- ❖ Students can opt for careers as Chemist in the reputed MNC companies and research laboratories.
- ❖ Students can develop the ability to communicate scientific information and research results in written and oral formats.
- ❖ Students can choose to pursue their Master's degree in Chemistry, Computer Science and Applications.

Programme Outcome:

The Programme enables the students,

PO1: Demonstrate, solve and an understanding of major concepts in all disciplines of chemistry.

PO2: Solve the problem and also think methodically, independently and draw a logical conclusion.

PO3: Employ critical thinking and the scientific knowledge to design, carry out, record and analyze the results of chemical reactions.

PO4: Create an awareness of the impact of chemistry on the environment, society, and development outside the scientific community.

PO5: Find out the green route for chemical reaction for sustainable development.

PO6: To inculcate the scientific temperament in the students and outside the scientific community.

PO7: Use modern techniques, decent equipments and Chemistry software.

DEPARTMENT OF COMPUTER SCIENCE

Bachelor of Science (Mathematics, Physics, Computer Science)

Program Objectives:

Bachelor of Science in Mathematics, Physics and Computer Science is a three-year degree program which provides a strong foundation in Mathematics, Physics and Programming. Students can opt for careers in the IT sector, particularly in Programming and Software Engineering. Students can choose to pursue their Master's degree in Computer Applications, Science or Management.

Program Outcomes:

After successful completion of three year degree program in Computer Science a student should be able to:

1. An ability to identify, formulate and develop solutions to computational challenges
2. An ability to design, implement and evaluate a computational system to meet desired needs within realistic constraints.
3. An ability to function effectively on teams to accomplish shared computing design, evaluation, or implementation goals.
4. An understanding of professional, ethical, legal, security, social issues and responsibilities for the computing profession.
5. An ability to communicate and engage effectively with diverse stakeholders.
6. An ability to analyze impacts of computing on individuals, organizations, and society
7. An ability to use appropriate techniques, skills, and tools necessary for computing practice
8. Effectively utilizing their knowledge of computing principles and mathematical theory to develop sustainable solutions to current and future computing problems.
9. Developing and implementing solution based systems and/or processes that address issues and/or improve existing systems within a computing based industry.

DEPARTMENT OF ZOOLOGY (UG)

PROGRAMME OUTCOMES - 2021-2022

B.Sc

Bachelor of Science (BSc) offers theoretical as well as practical knowledge about different subject areas. These subject areas include Zoology, Botany , Biotechnology & Chemistry, and other fields depending on the specialisation a student opts.

This programme course is most beneficial for students who have a strong interest and background in Science. The course is also beneficial for students who wish to pursue multi and inter-disciplinary science careers in future.

Following are the various programme outcomes:

- This course forms the basis of science and comprises of the subjects like chemistry, Botany, zoology & Biotechnology , Master in Food technology and Processing .
- Students after this course have the option to join Indian Civil Services as IAS, IFS, Wildlife officers, Marine Biologist etc..
- Science graduates can go to serve in industries or may opt for establishing their own industrial unit.
- Professional field such as Poultry, Sericulture, apiculture, Pisciculture, dairy etc.,
- Understand the unity of life with the rich diversity of organisms and their ecological and evolutionary significance.

DEPARTMENT OF BIOTECHNOLOGY

PROGRAMME OUTCOME: B.Sc., 2021-2022

Bachelor of Science in Biotechnology is an undergraduate Biotechnology course.
PO1: Biotechnology is a field of applied biology that involves the use of living organisms and bioprocesses in engineering, technology, medicine and other fields requiring by products.
PO2: Biotechnology being a multidisciplinary field is in great demand because of its various applications in the field of research and development.
PO3: The advantage of studying this degree course is that the candidate can further pursue higher studies in specialized fields of sciences i.e. Biotechnology, Microbiology, Biochemistry, Molecular Biology, and Genetics etc.

The objective of the department is to promote safe implication of technology by keeping in mind the ethical standards and to develop human resource to meet the growing demand for biotechnologists in the field of food, agriculture, aquaculture, medicine and environment management.

S.V.K.P & Dr K.S.RAJU ARTS & SCIENCE COLLEGE(A), PENUGONDA.

DEPARTMENT OF BIOCHEMISTRY

PROGRAMME SPECIFIC OUTCOME : B. Sc (MBBCBT)

The program Microbiology, Biochemistry & Biotechnology has been introduced to prepare the students for a career which finds application and provides solution to some of the major contemporary problems on the earth i.e., providing food for growing population, designing advanced medical treatment options for increasing –evolving diseases, to find solution to deteriorating environment caused due to over exploitation / misuse of natural resources etc.,

In this programme the knowledge of Microbiology emphasizing distribution, morphology and physiology of microorganisms in addition to skills in aseptic procedures, isolation and identification. This course also includes sophomore level material covering immunology, virology, epidemiology and DNA technology.

In this programme the knowledge of Biochemistry presents the chemical reactions and metabolic functions in the living system and their regulations. This course also include the concept of Basic Structure and metabolism of Bio molecules.

Finally the subject Biotechnology amalgamates the various disciplines of sciences and offers ethically acceptable knowledge to bring about sustainable solutions for a variety of problems related to Agriculture, Environment, Quality of human life. These problems are solved with responsibility using appropriate tools while keeping in mind safety factor of Environment and society

B.A. Programme outcomes (Pos)

This college offers degree in Bachelor of Arts (B.A) with Economics, Political Science, History combination the students go through a well- defined study programme for their all-round development. Following the Successful Accomplishment of B.A, students can look for jobs or go for higher education such as postgraduate degree in any of the areas where BA has been completed. Following are the major outcomes of this programme.

PO1; Students can go for a career option in various areas following successful accomplishment of their Bachelor of Arts degree. Employment opportunities include Historian, Economist, Educationist, Archaeologist, Political Scientist, philosopher, Social Activist, Personnel Manager, Sociologist, Philosopher, Public Relation Executive, Lawyer Journalist and so on.

PO 2; This course also offers opportunities to undergraduates in Banking jobs, SSC, Railway and even Civil services. They can appear for almost every exam where science is not the basic eligibility

PO 3; After completion of this course students can go for B.Ed, M.A, M.Ed, or PhD and choose teaching as career either in school or in university

PO 4; study of Humanities makes students socially aware. They know the problem of society. Thus many choose to work in NGOs and some open their own.

PO 5; students having degree in B.A. have edge in CAT exams as IIMs looking for diversity. Many arts students pursue their career in Management and Marketing.

PROGRAM OUTCOMES

B.COM (GENERAL & COMPUTER APPLICATIONS)

For the Academic Year 2021-22

The Bachelor of Commerce (General) is an undergraduate degree designed to provide students with a wide range of managerial skills, while building competence in particular areas of business such as financial accounting, banking laws, corporate accounting and others. Students learn about basic theories, principles and processes involved in Commerce and Accounting. After completing this course, students can opt for M.Com. or MBA for their Master's degree, pursue CA/CFA/ICWA or move into executive roles in the corporate sector.

Program Outcomes (POs) for B COM:

PO 1: The course provides a platform for experimental learning and grooms students towards industry specific curriculum with focused approach on specific areas which are crucial in the management of companies.

PO 2: After completing three years for Bachelors in Commerce (B.Com) program, students would gain a thorough grounding in the fundamentals of Commerce and Finance.

PO 3: The course is focused on the all-round development of the students' personality through proper education and exposure to the vast treasure of knowledge.

PO 4: The course provides exposure to students in the latest trends in relevant branches of knowledge giving them the needed competence and creativity to face global challenges.

PO 5: Students have a plethora of choices to pursue professional courses such as CA, M.COM, MBA, CMA, ICWA, CS, CFA, etc.

PO 6: The students will be ready for employment in functional areas like accounting, taxation, banking, insurance and corporate law.
